

***“Who do I Call “ = “Who You Know”***

This listing is to remind you of who are the members so you will compare it to the people you **know**. The people **you know** are the ones you will want to sponsor into membership. Compare ‘**Who You Know**’ to the names below and then come prepared. Bring this non-member, “**Who You Know**” list (along with your Rolodex, client list, civic club roster, etc.) to the membership campaign!

**Hint – Secret of Super Success: Immediately cover up the right column of this categorical list with a blank lined sheet of paper. Be sure to not peek - do not see the printed right column (who the current members are).**

**Fill in the names you think of when reading the left column (these are the types of businesses that historically will be Chamber members and many times we just plain forget to ask them or assume they are members already). Double check these against the alphabetical roster which is very accurate, this categorical listing is for ideas and is not as accurate as the alphabetical).**

**Do this exercise for all the pages of the list and you will have a great list of prospects for you to sponsor into Chamber membership!**
